Restaurant POS Choices

We offer three different POS Systems for our Restaurant Clients because we work for our customers, not our vendors. We call these choices "Small, Medium and Large". Each of these innovative solutions is designed to cost less and do more.

"Small"

No Windows, No Hard Drive,
No Crash, Tank!

While it's simple, reliable and affordable
This workhorse offers flexibility, reliability
and security at a fraction of the cost of the
competition.

"Medium"

The Toshiba WinPOS was designed,
manufactured and approved by TOSHIBA
TEC in their factories to guarantee the
world-class quality POS products
TOSHIBA/TEC customers have enjoyed
for over 50 years.

"Large"

Every minute is valuable. The Award
Winning Maitre'D offers a powerful
enterprise solution that was built to offer
business intelligence to any restaurant
chain seeking to streamline operations in
their numerous holdings.
